

ANIMAL COMMUNICATIONS SERVICES

With Psychic-Medium Kelly Weaver

Kelly L. Weaver is passionate about animals. Ever since she was a small girl she loved speaking to all types of animals from cats, horses and butterflies to wildlife. She is able to connect to the animal answering questions about how they are feeling. What makes them happy or sad? Are they frustrated or content with their owner? Kelly is a professional Psychic-Medium who works

with clients and animals all over the world. As the owner of **Kelly's Magical Garden** she not only speaks to the animals, but works with the spirit world, connects with your angels plus your loved ones on the other side. **Kelly's Magical Garden** offers a wide array of services for your spiritual quest. She has been profiled in many magazines, newspapers and also seen on national television, most recently on the Discovery Channel's *A Haunting*. Kelly has written many articles on animal communication and other topics. Her first book, *Whispers in the Attic – Living with the Dead* (Spirit House Press 2004) includes a chapter on animals that have crossed over and how they connect with us from the other side.

Have you ever wondered what your pets were trying to tell you? Have you lost a beloved pet and want to know how they are doing over the 'Rainbow Bridge?' Kelly can help.

She specializes in animals that have certain 'issues' such as the cat that refuses to use the litter box, an illness that the veterinarians cannot explain or why Fido is set on eating the furniture. Is it psychological? Perhaps. *Are you telling the pet what to do through your thoughts and they are misinterpreting the message?* **Probably.** If you recently adopted a pet, Kelly can find out its past to help the two of you bond

Kelly will speak to your animal friend and give you the answers from the pet itself. Animals show Kelly where they hurt, and tells her if their space has been invaded, if they like their food or who they do not like in the household. Pets can be very sensitive to their environments, and you may be surprised at what they have to say!

As a skilled animal communicator, she can connect to your pet and ask what is going on in their minds plus **teach you** how to speak to your special friends.

Kelly often lectures at various groups on animal communication and other topics. She easily reads the energies from the pet through a photograph (no e-mail photos, please) or from their collar. Readings are by appointment. If possible she will meet the animal in person. **From lizards to horses...Kelly can help.**

Cost per pet reading:

- \$65.00 for a living pet (discounts offered for multiple pets read at the same time).
 - \$75.00 for an after death pet reading
- Master Card and Visa Accepted --
